2017 GRANT GUIDELINES
Accepting Applications May 15, 2017 – June 29, 2017

Since 1985, the Prevent Cancer Foundation®, a 501(c)3 nonprofit, has invested nearly $142 million in support of cancer prevention research, education, advocacy and outreach programs nationwide and have played a pivotal role in developing a body of knowledge that is the basis for important prevention and early detection strategies. The Foundation is the only U.S. nonprofit organization solely devoted to cancer prevention and early detection. We have funded nearly 450 scientists at over 150 leading medical institutions across the country. Our public education programs have applied this scientific knowledge to inform the public about ways they can reduce their cancer risks. For more information, visit www.preventcancer.org.

Applications must be written to indicate they are clearly within the scope of these priorities in order to be considered. Any applications that do not meet these qualifications will NOT be reviewed.

Who Can Apply
- Early career researchers at the instructor or assistant professor level
- More senior researchers who have shifted their area of interest toward primary and secondary cancer prevention/early detection
- Researchers at any academic level who need seed funding to test an innovative hypothesis
- Researchers from non-profit institutions (including academic institutions) are eligible to apply
- Researchers from for-profit institutions will NOT be considered
  - Documentation must be included that proves tax-exempt status of the applicant organization or parent organization. Attach your organization’s IRS determination letter or other official documentation verifying your status as a nonprofit, academic institution or government agency.

Grant proposals will be considered in the following categories:
- Basic, clinical, translational and population-based research projects
- Education programs in cancer prevention/early detection
- Early detection projects
- Behavioral intervention projects

See Important Information for Applicants for information on eligibility criteria.

Examples of acceptable proposals:
- Projects that are clearly in the field of cancer prevention or early detection
- Research projects which, if successful, may lead directly to reducing the incidence of cancer *
- Primary and secondary prevention research on all types of cancers
- Creative or innovative approaches to cancer prevention/early detection research

* Examples of such projects include, but are not limited to: research that leads to improvement in early detection and intervention, research into dietary links to cancer, behavioral/educational aspects of cancer prevention/early detection and epidemiological and genetic studies that may have a direct impact on cancer prevention/early detection.
**Important Information for Applicants**

Proposals must fall within the scope of the Foundation’s mission and funding priorities to be considered. The goal of the Foundation’s research program is to provide funding for *innovative projects* expected to lead to future funding from other peer-reviewed sources.

- Basic science grants *must* demonstrate substantial potential for impact on cancer prevention or early detection (specifically, pre-clinical research is acceptable but must be prevention/early detection- oriented and clearly identifiable as translational).
- Studies related to therapy for established or advanced cancer will *not* be reviewed.
- The issue of relevance to cancer prevention/early detection must be convincingly addressed in the application.
- Applications that do not have an adequate biostatistical analysis may not be reviewed or funded.
- Applications that do not have a biographical sketch for all key personnel will not be considered.
- Researchers need not be United States citizens. However, research must be conducted in the United States primarily.
- We accept resubmissions *only* from applications who were invited to reapply.

---

An eligible proposal must **demonstrate substantial potential for impact on prevention/early detection of cancer.**

**Policy on Tobacco-Industry Funding and Conflicts of Interest**

Scientific investigators or health professionals who are currently funded by the tobacco industry for any project, or who have been funded by the tobacco industry during the previous four years, or whose named mentors in the case of mentored fellowships are funded by the tobacco industry for any project (currently or during the previous four years) may not apply and will not be eligible for the Prevent Cancer Foundation research grants or fellowships. This policy has been in effect since January 1, 2007.

Scientific investigators, health professionals, or named mentors who accept funding from the tobacco industry for any project during the tenure of a Prevent Cancer Foundation research award must inform the Foundation of such funding, whereupon the Foundation grant or fellowship will immediately be terminated. Tobacco industry funding includes the receipt of funds from a company that is engaged in or has affiliates engaged in the manufacture of tobacco produced for human use; funds in the name of a tobacco brand, whether or not the brand name is used solely for tobacco products; funds from a body set up by the tobacco industry (e.g., a corporate foundation) or by one or more companies engaged in the manufacture of tobacco products.

The following do not constitute tobacco industry funding for the purposes of this policy:

- Legacies from tobacco industry investments (unless the name of a tobacco company or cigarette brand is associated with them)
- Funding from a trust or foundation established with assets related to the tobacco industry but no longer having any connection with the tobacco industry even though it may bear a name that (for historical reasons) is associated with the tobacco industry
- Funds from the Master Settlement Agreement of November 23, 1998

The grant or fellowship applicant must sign the Prevent Cancer Foundation Statement of Compliance with Tobacco Policy that he/she (and his/her mentor if applicable) does not accept tobacco-industry funding, as outlined above. The application will be considered incomplete if the signed statement is not included.

The tobacco policy can be found online at proposalCENTRAL as a part of your required uploads.
For purposes of the Prevent Cancer Foundation grants and fellowships, tobacco industry funding is defined as money provided or used for all or any of the costs of the research, including personnel, consumables, equipment, buildings, travel, meetings and conferences, and operating costs for laboratories and offices.

Applicants to the grant and fellowship program must disclose any additional financial relationships that may impact the integrity of science and results.

**APPLICATION POLICIES**

**Award Amount**
Grants will be awarded for two years at $50,000 per year, for a total of $100,000. See POST-AWARD REQUIREMENTS for information about required interim and final progress reports. The goal of the Foundation’s research program is to provide funding for innovative projects expected to lead to future funding from other peer-reviewed sources. Therefore, grants are non-renewable.

Awards are derived from funds raised by the Prevent Cancer Foundation. The amount of funding for the program and the number of grants awarded may vary from year to year. The Foundation is under no obligation to award a certain number of grants in any given year. Financial support for proposals which are eligible for funding is at the discretion of the Board of Directors.

**Application Submission Information**
- Applicants must submit proposals electronically through proposalCENTRAL, an electronic grant submission system provided by Altum, Inc..
- The online application is due **June 29, 2017 (by 11:59pm EDT)**.
- **The application fee is $75.00.** Please fill out the payment form found at the end of this section of the guidelines and mail it to: Prevent Cancer Foundation c/o Research Administration 1600 Duke St. Suite, 500 Alexandria, VA 22314
  - Do NOT upload the payment form into proposalCENTRAL. If you upload this into proposalCENTRAL, all reviewers will have access to your payment information.
  - Your application fee must be received by **Wednesday July 5** in order for your application to be processed. If your payment is not received by this date, your application will not be reviewed. **This fee is non-refundable.**
- **Late and/or incomplete applications will not be accepted. No exceptions will be made.**
- **Application fee is due no later than Wednesday July 5, 2017.** If your payment is not received by this date, your application will not be reviewed.
- Applications should be typed in no smaller than 11-point font size in Arial or Times New Roman. **Applications with smaller fonts will be automatically disqualified.**
- Tables should be prepared in black ink.
- Supplemental information such as support letters should be included in the appendix of the online application. Articles should be referenced but not included in the appendix.
Electronic Submission Instructions
Applicants must submit proposals electronically through proposalCENTRAL, an electronic grant submission system provided by Altum, Inc.

2. If you are a ‘new’ user in proposalCENTRAL click the ‘Register’ button under ‘First Time Users’ and complete the registration process.
3. If you are already registered in proposalCENTRAL access the site and log in with your user ID or e-mail address. If you have forgotten your password, click on the ‘Forgot Password?’ link. Supply your e-mail address or your user ID in the space provided; your password will be sent to you by e-mail.
4. After you log in, complete your Professional Profile (green tab, second from the left) before starting an application.
5. To start an application, select the ‘Grant Opportunities’ tab (gray tab, furthest to the right). A list of applications will display. Find the Prevent Cancer Foundation program that you wish to apply for and click the ‘Apply Now’ link (second to last column) to ‘create’ your application.
6. If you have any difficulties registering, logging in, or creating your application, contact proposalCENTRAL Customer Support immediately: phone: 1-800-875-2562 or 703-964-5840, and/or e-mail: pcsupport@altum.com.

Application Submission Checklist
Before you submit your application:

☐ Verify that all sections are complete. Incomplete applications will not be reviewed.
☐ Include letters of support/collaboration as part of the appendix.
☐ Verify that page limits have not been exceeded. All page lengths refer to single-sided pages. Applications exceeding any page limit will not be reviewed.
☐ Verify that all page numbers are correct.
☐ Be sure to put the Principal Investigator’s name and Project Title in the Document Header above the words “Grant Application.”
☐ Sign Statement of Compliance with the Tobacco Policy verifying that the applicant does not accept tobacco-industry funding. Include the statement in the required uploads section of the online application.
☐ Sign Application Signature page found in the “Signature Pages” section of the online application (this page is auto-populated with information from your online application). Include the signed signature page in the required uploads section of the online application.
☐ Submit your proof of non-profit status. Include this documentation in the required uploads section of the online application.
☐ Submit research plan and entire electronic grant application through proposalCENTRAL’s grant submission system.
☐ Pay the $75.00 application fee by check or credit card with the payment form found on the following page.
2017 Payment for Research Grant/Fellowship Application

Do NOT upload this form into proposalCENTRAL (the online application system). If you upload this into proposalCENTRAL, all reviewers will have access to your payment information.

** Questions: Email pamela@preventcancer.org

<table>
<thead>
<tr>
<th>Applicant 6-digit ID Number (from proposalCENTRAL)*:</th>
</tr>
</thead>
<tbody>
<tr>

</table>

*Disbursement of fourth quarterly payment and final payment is contingent upon receipt of reports outlined under section titled “POST-AWARD REQUIREMENTS.”

Note: The Prevent Cancer Foundation reserves the right to alter the project dates as necessary.

Applicants whose proposals do not fit within the scope of the Prevent Cancer Foundation's administrative or eligibility criteria will be notified with all other applicants, by November 21, 2017.
OVERVIEW OF RESEARCH PROPOSAL

All page lengths refer to single-sided pages. Applications exceeding any page limit will not be reviewed.

Online Fields

- **Layman’s Summary**: A statement of no more than 2000 characters explaining the subject of your research proposal, geared towards the lay public. State how the work is significant to cancer prevention/early detection. This summary will be provided to help the general public and the Foundation’s donors understand the nature of your work. It also demonstrates that the researcher has a clear grasp of the project’s significance to cancer prevention/early detection.

- **Technical Abstract**: A scientific abstract of no more than 2000 characters suitable for a technical audience.

- **Cancer Prevention Statement (300 characters)**: In lay-friendly language, briefly describe the relevance of this proposal to cancer prevention/early detection.

Research Plan (Download a copy of the research plan online at proposalCENTRAL)

- **Statement of Significance (1 page)**: A statement of the significance of your proposed project with respect to the field of cancer prevention/early detection.

- **Specific Aims (1 page)**: A statement of the goals, objectives and relevance to the Foundation’s funding priorities. Proposals which are not directly related to cancer prevention/early detection will not be considered.

- **Background (2 pages)**: A statement of the problem or need that will be addressed by the proposed project.

- **Methods (5 pages)**: A statement of the methodology to be used in achieving the specific aims, including an adequate biostatistical analysis.

- **Timetable (1 page)**: A timetable for implementing the proposed project. Reviewers will weigh heavily the feasibility of completing the project within the two-year time frame.

- **Evaluation (2 pages)**: A detailed evaluation plan that addresses the specific project activities outlined within your methodology.

- **Biographical Sketch (Up to 5 pages per person)**: The biographical sketch should be completed for the Principal Investigator and all key personnel.

- **Grant Budgets (1 page/year) and Budget Justification (1 page/year)**: Indirect costs will not be covered.

**Personnel** – The names of all personnel involved in the project, and whether or not salaries are requested. Fringe benefits may be requested if benefits are treated by the applicant’s institution as a direct cost to all sponsors. The percentage of salary requested cannot exceed the percent effort for each person. Justify personnel expenses by briefly explaining the services each person will perform or knowledge he or she brings to the project.

**Consultant Costs** – The name and institutional affiliation of any and all consultants, including statisticians, who have agreed to serve on the project and are not listed under personnel. Under
budget justification, describe services to be performed, the number of days, rate of compensation, and other associated costs.

**Indirect Costs – will not be covered.**

**Use of Funds** – The Prevent Cancer Foundation funds must be used for the specific purpose for which they are awarded unless written permission is granted from the Foundation. The Foundation will not make grants for construction of buildings or purchase of land.

- **For Resubmission Applicants Only (Up to 4 pages):** State reviewers’ concerns regarding the original proposal (in bold font) and explain how this application addresses those concerns.
  - We accept resubmissions only from applications who were invited to reapply.
  - **If you are an applicant who was invited to reapply, your revised application would not have a guarantee of any particular outcome and would go through the same competitive review process as all other applications.**

- **Appendix:** List of literature cited should be included as part of the appendix. It does not count towards page limits. Articles should be referenced but not included in the appendix. Also, the appendix should include any letters of support or collaboration.
  - Letters of support or collaboration are strongly encouraged, especially if the success of the proposed project is critically dependent on access to another individual's professional assistance, supplies or equipment.

- **Certification for Human Subjects:** If activities involving human subjects are planned at any time during the proposed project period, you must submit a letter of approval from your Institutional Review Board (IRB). Letters of approval are not required at the time of application. If you receive a notification of award from the Prevent Cancer Foundation, you must verify IRB approval within 60 days after the award notification. The letter must be dated no earlier than one year before the application is submitted. **If verification of IRB approval is not received within 60 days after the award notification, the application will be considered incomplete and an award will not be made.**

- **Certification for Vertebrate Animals:** If activities involving vertebrate animals are planned at any time during the proposed project period, you must submit a letter of approval by the Institutional Animal Care and Use Committee (IACUC). Letters of approval are not required at the time of application. If you receive a notification of award from the Prevent Cancer Foundation, you must verify IACUC approval within 60 days after the award notification. The letter must be dated no earlier than one year before the application is submitted. **If verification of IACUC approval is not received within 60 days after the award notification, the application will be considered incomplete and an award will not be made.**
GRANT REVIEW CRITERIA

Grants are evaluated by an independent Scientific Review Panel according to a peer-review process similar to that of the National Institutes of Health. However, the Prevent Cancer Foundation is a 501(c)(3) foundation, which is supported by the general public.

Proposals not meeting the Foundation's funding guidelines will not be considered by the panel.

Administrative and Eligibility Review

- All applications are reviewed for their completeness and compliance with the guidelines. Any incomplete application or non-compliant with stated guidelines will be disqualified.
- The Scientific Review Panel co-chairs will determine if an application does not qualify as prevention/early detection or the science is too basic. They will also determine whether proposals fall within the scope of the Foundation’s mission and its funding priorities in order to be considered for scientific review.

Scientific Review Criteria

A grade will be given by the Scientific Review Panel according to the following criteria:

- Clarity of specific aims and significance to cancer prevention/early detection
- Quality of the institutional research environment
- Methodology
- Relevance of supporting data
- Competence of Principal Investigator and supporting personnel
- Appropriateness of project size to resources and timeline
- Budget

Grades will be based on:

- Does this project contribute significantly to the field of cancer prevention/early detection?
- Do these results significantly improve the application of knowledge to cancer prevention/early detection?
- Will these data stimulate further scientific research into cancer prevention/early detection?
- Potential for future impact on the field, given the innovative nature of the project.
- If incorporated into public health policy, will this new knowledge make a useful contribution to the prevention/early detection of cancer?
- Achievability of the project's specific aims within the two-year time frame.

Reviewer comments* will be shared with applicants: grades are not shared.

* If your application passes both the administrative and eligibility reviews, you will receive written feedback. If your application does not pass the administrative review or is deemed ineligible for review, you will not receive written feedback from the reviewers.
POST-AWARD REQUIREMENTS

All grant and fellowship recipients must adhere to the following requirements.

Yearly Reporting

1) An interim progress report, personal statement and financial statement are due one month prior to the end of year one. The second year of funding is contingent upon a satisfactory year-one progress report.

2) A final progress report, personal statement and cumulative financial report are due three months after the end of year two. The final report must include the remaining month of year one through the project end date. The final quarterly payment of a fellowship award will not be made until the Prevent Cancer Foundation has received all required year-two reports.

• Progress Report (3-6 pages)
  Summarize the main focus of your research and clearly state your findings. Specify how the research results met the objectives established in your application. This report should include but is not limited to answering the following questions: Did you meet all of the goals you set out to achieve? If not, why not? What is the impact of your research on the current understanding of cancer prevention/early detection? What further research remains to be done?

• Personal Statement (1-3 pages in lay-friendly language)
  How has the funding provided by the Prevent Cancer Foundation helped your overall professional growth (e.g., journal submissions, career opportunities, new research focus)? Has this grant led to other funding opportunities? Have you had the opportunity to report your findings at professional meetings? If fellowship, what courses have you taken and how has this helped you in your professional pursuits?
    o For final report only (in lay-friendly language) – What impact or potential impact do your findings have on the field of cancer prevention/early detection?

• Financial Statement
  Give a breakdown by category (i.e., personnel, supplies, etc.) of how the Foundation’s funds were utilized. This document should be filed by the University’s Office of Research Administration or other comparable source. You may use your institutions’ template for this and must be signed by the designated official in order to have a completed report.

Publication of Award

The awarded grant/fellowship must be publicized by the recipient institution, either in its own publications (student newspaper, alumni newsletter, institutional magazine, etc.) or in a local newspaper, with attribution to the Prevent Cancer Foundation. Please forward copies of these news articles to the Foundation's Programs Division upon publication. Recipients should also send a reprint of all research published as a result of their Prevent Cancer Foundation award.

Peer-Reviewed Publications

All publications, presentations, project materials, etc., must acknowledge the Foundation’s support of the project by displaying the statement, “This project is supported by the Prevent Cancer Foundation.” The recipient must also send a reprint of all research published as a result of his/her Foundation award.

Authorization

Funding of a proposal authorizes the Prevent Cancer Foundation to use the applicant's name and proposal
in soliciting contributions to fund its cancer research and educational programs. The awarded proposals may be featured on the Prevent Cancer Foundation website, blog, annual report and other publications.

- Awardees should expect to answer additional questions regarding their work periodically throughout the two-year period to support future funding of the cancer research and educational programs.

Photo Submission and Photo Release
The recipient must provide a hi-res photo (300 dpi, 1 MB) for use on the Foundation website, blog and publications. If the recipient does not have a hi-res photo, the recipient must provide contact information for a staff person in the university press office. See acceptance agreement for details. Please sign and return a photo release form along with the signed Acceptance Agreement. The awarded proposals will be featured on the Prevent Cancer Foundation website, social media accounts and blog.

No-cost Extensions
In the event that a project cannot be completed within the two-year time line granted by the Foundation, a request for one six-month, no-cost extension must be submitted to the Programs Division at least two months prior to the project end date.

Final Payment Policy
The Prevent Cancer Foundation will hold the final payment of all awarded grants and fellowships until receipt of the final progress report, personal statement and cumulative, signed financial statement. If these reports are not received within 6 months of the project end date (including no-cost extension end date), the Foundation will withdraw the final payment; no payment will be made. This policy is in effect as of June 1, 2006.

Sunshine Act
Physicians who receive grant funding may be required to sign the Sunshine Act Physician Payment Information Form.
