

2019 Dialogue for Action Session Content Documentation

Wednesday, April 24, 2019

Session	Speakers	Time / Credit	Objectives	Session Description
<p>Foundations for Prevention and Early Detection of Breast, Cervical, Colorectal and Lung Cancers</p> <p>Teaching method(s) <input checked="" type="checkbox"/> Lecture <input checked="" type="checkbox"/> Discussion <input checked="" type="checkbox"/> Question/ Answer</p>	<p>Moderator: Faye L. Wong, MPH, Program Services Branch, Centers for Disease Control and Prevention</p> <ul style="list-style-type: none"> Bridget A. Oppong, MD, FACS, Reston Breast Care Specialists and Adjunct Faculty, Georgetown University Patti E. Gravitt, PhD, MS, Department of Epidemiology and Public Health, University of Maryland Baltimore, School of Medicine Roy J. Duhé, PhD, University of Mississippi Medical Center Hormuzd Katki, PhD, Division of Epidemiology & Genetics, National Cancer Institute Durado Brooks, MD, National Colorectal Cancer Roundtable and American Cancer Society Jacqueline Miller, RN, BSN, OCN, New Jersey Cancer Education and Early Detection Program, Virtua Health System 	<p>9:00-12:00 PM</p> <p>3 hours</p> <p>Suggested: 3.0</p>	<ul style="list-style-type: none"> Describe the natural history and epidemiology of cancers with mandated guidelines- driven screening Discuss the role of primary care settings and community health centers in cancer screening Discuss the role of health educators in promoting cancer screening and overcoming barriers to screening 	<p>This overview of the mandated guidelines-driven cancer screenings functions as an in-service for participants new to cancer screening and as a review for others.</p>
<p>Colorectal Cancer Screening Workshop: 80% in Every Communications Guidebook: Recommended Messages for Reaching the Unscreened</p> <p>Teaching method(s) <input checked="" type="checkbox"/> Lecture <input checked="" type="checkbox"/> Discussion <input checked="" type="checkbox"/> Question/ Answer <input checked="" type="checkbox"/> Demonstration</p>	<p><i>Speakers to be announced</i></p>	<p>9:00-10:20 AM</p> <p>1.20 hours</p> <p>Suggested: 1.25</p>	<ul style="list-style-type: none"> Discuss the tested messages and advice in the new <i>80% in Every Community Communications Guidebook</i> Application: Identify local key populations and work with messages to see how they might impact the communities served 	<p>The Prevent Cancer Foundation and the National Colorectal Cancer Roundtable will offer a workshop to enhance and expand opportunities to increase colorectal cancer screening according to the guidelines.</p> <p>The goal of this session is to introduce users to the new <i>80% in Every Community Communications Guidebook</i>, which provides tested messages and advice for reaching key populations. Participants will have the opportunity to work with the messages and consider how they might use the messages in the communities they serve.</p>

<p>HPV Vaccination Information-Sharing</p> <p>Teaching method(s) <input checked="" type="checkbox"/> Lecture <input checked="" type="checkbox"/> Discussion <input checked="" type="checkbox"/> Question/ Answer</p>	<p><i>Speakers to be announced</i></p>	<p>10:30- 11:45 AM 1.15 hours Suggested: 1.5</p>	<ul style="list-style-type: none"> • Share information about a successful HPV vaccination program • Discuss opportunities and challenges in HPV vaccination programs • Participate in peer-to-peer exchange of information, challenges and opportunities in programs from across the US 	<p>This session offers an in-depth look at a successful HPV vaccination program 'on the ground' and offers a venue for peer-to-peer sharing about opportunities and challenges for HPV vaccinations on the national, state or local level.</p>
<p>Evidence, Opinion and Fact in Cancer Screening and Prevention</p> <p>Teaching method(s) <input checked="" type="checkbox"/> Lecture <input checked="" type="checkbox"/> Discussion <input checked="" type="checkbox"/> Question/ Answer <input checked="" type="checkbox"/> Demonstration</p>	<p>Ruth Etzioni, PhD, Fred Hutchinson Cancer Research Center</p>	<p>1:00-2:30 PM 1.5 hours Suggested: 1.5</p>	<ul style="list-style-type: none"> • Review basic cancer screening statistics and identify gaps in evidence for cancer screenings • Discuss the importance of appropriate use/interpretation of statistics in cancer screenings • Demonstrate how to analyze evidence in cancer screening, and how to distinguish opinion from fact 	<p>When it comes to cancer screening or prevention, the evidence is often uncertain. This workshop will discuss why there are still gaps in the evidence and will demonstrate how to distinguish opinion from fact when filling in the gaps, using case studies from the professional and popular press. Dr. Etzioni will address overdiagnosis, recent guidelines on prostate and colorectal cancer, clinical-trial results on ovarian cancer screening and obesity as a cancer risk. She will also ask: Is the circulating DNA test ready for prime time?</p>
<p>Information Exchange About State and Tribal Colorectal Cancer Screening Programs</p> <p>Teaching method(s) <input checked="" type="checkbox"/> Discussion <input checked="" type="checkbox"/> Question/ Answer</p>	<p>Jennifer Boehm, MPH, Centers for Disease Control and Prevention Melissa Leypoldt, RN, Nebraska Department of Health and Human Services</p>	<p>1:00-2:15 PM 1.15 hours Suggested: 1.25</p>	<ul style="list-style-type: none"> • Discuss information shared by peers regarding state and tribal colorectal cancer screening programs • Discuss "best practices" in colorectal cancer screening programs • Identify characteristics of successful colorectal cancer screening programs 	<p>The 2019 <i>Dialogue</i> will again host an opportunity for peer discussion on local efforts to increase colorectal cancer screening. Attendees will have the chance to meet with others working in this area and share successes, challenges, and lessons learned.</p>

2019 DIALOGUE FOR ACTION[®] on Cancer Screening and Prevention

April 24-26, 2019 | Hilton Crystal City, Arlington, VA

<p>American Indian/ Alaska Native Meeting to Share Experiences with Cancer Screening and Prevention Programs in Indian Country</p> <p>Teaching method(s) <input checked="" type="checkbox"/> Discussion <input checked="" type="checkbox"/> Question/ Answer</p>	<p>Carolyn Angus-Hornbuckle, JD, National Indian Health Board</p> <p>Donald Haverkamp, MPH, Centers for Disease Control and Prevention</p>	<p>3:30-5:30 PM</p> <p>2 hours</p> <p>Suggested: 2.0</p>	<ul style="list-style-type: none"> • Explore the current state of health in Indian Country • Explore opportunities and challenges of cancer screening and prevention programs for American Indians/ Alaska Natives across Indian Country 	<p>Carolyn Angus-Hornbuckle, JD, will speak on the state of health in Indian Country. Donald Haverkamp, MPH, will share data updates on cancer incidence and trends in various regions of Indian Country.</p> <p>Participants will also have the opportunity to share information and updates about their community programs.</p>

Session	Speakers	Time / Credit	Objectives	Session Description
<p>Opening Keynote: Breast Inflammation: A Defining Moment?</p> <p>Teaching method(s) <input checked="" type="checkbox"/> Lecture <input checked="" type="checkbox"/> Discussion <input checked="" type="checkbox"/> Question/ Answer</p>	<p>Andrew Dannenberg, MD, Weill Medical College of Cornell University</p>	<p>8:10-9:15 AM</p> <p>1 hour, 5 minutes</p> <p>Suggested: 1.0</p>	<ul style="list-style-type: none"> Summarize current research findings on the link between adipose inflammation and increased risk of breast cancer. Describe current status of research, and where this research will be in 5-10 years and public health implications on this research Discuss the idea of routine measures of body composition for cancer prevention and developing future preventive interventions 	<p>Dr. Andrew Dannenberg will summarize key findings on his current research focusing on the link between adipose inflammation and breast cancer, and discuss the future of preventive interventions.</p>
<p>Research Updates in Cancer Screening</p> <p>Teaching method(s) <input checked="" type="checkbox"/> Lecture <input checked="" type="checkbox"/> Discussion <input checked="" type="checkbox"/> Question/ Answer</p>	<p><i>Moderator to be announced</i></p> <p>Mary Pasquinelli, MS, APRN, Department of Medicine, University of Illinois Hospital and Health Science System, Chicago</p> <p>Robert Smith, PhD, American Cancer Society and the Rollins School of Public Health, Emory University</p> <p>Anjana Pillai, MD, The University of Chicago Department of Medicine</p>	<p>9:40-11:05 AM</p> <p>1 hour, 15 minutes</p> <p>Suggested: 1.25</p>	<ul style="list-style-type: none"> Discuss how a lung cancer screening program can help reduce health disparities Share new evidence on the value of breast cancer screening Describe the research and evidence supporting liver cancer screening 	<p>This session will cover new evidence and research updates on current guidelines-driven cancer screenings. It will also take a look at the argument for liver cancer screening, and what it will take to get an uptake on liver cancer screening.</p>

<p>Current Research on HPV Vaccination</p> <p>Teaching method(s) <input checked="" type="checkbox"/> Lecture <input checked="" type="checkbox"/> Discussion <input checked="" type="checkbox"/> Question/ Answer</p>	<p><i>Moderator to be announced</i></p> <p>Anne F. Rositch, PhD, MSPH, Department of Epidemiology, Johns Hopkins Bloomberg School of Public Health and Johns Hopkins Sidney Kimmel Comprehensive Cancer Center</p> <p>Melanie Kornides, ScD, MPH, APRN, University of Pennsylvania School of Nursing</p> <p>Anil Chaturvedi, PhD, Division of Cancer Epidemiology & Genetics, Clinical Genetics Branch, National Cancer Institute</p>	<p>11:05 AM-12:20 PM</p> <p>1 hour, 15 minutes</p> <p>Suggested: 1.25</p>	<ul style="list-style-type: none"> Identify reasons why parents choose not to vaccinate their children against HPV Discuss current research and best practices for increasing HPV vaccination for boys Describe the evidence on HPV-associated oropharyngeal cancer and the HPV vaccine 	<p>This session will discuss the latest research and best practices around the HPV vaccine.</p>
<p>Innovative Communications in Cancer Screening or Prevention</p> <p>Teaching method(s) <input checked="" type="checkbox"/> Lecture <input checked="" type="checkbox"/> Discussion <input checked="" type="checkbox"/> Question/ Answer</p>	<p>Janice L. Krieger, PhD, STEM Translational Communication Center, University of Florida</p> <p>Kathryn L. Taylor, PhD, Department of Oncology, Lombardi Comprehensive Cancer Center, Georgetown University</p> <p>Leah Frerichs, PhD, Gillings School of Global Public Health, University of North Carolina</p>	<p>1:50-3:05 PM</p> <p>1 hour, 15 minutes</p> <p>Suggested: 1.25</p>	<ul style="list-style-type: none"> Discuss the main barriers and enablers for effective colorectal cancer screening messaging for rural and minority populations Discuss strategies and tips for developing or replicating smoking cessation programs Identify unique challenges American Indians face in getting screened for CRC Discuss the use of Adaptive Video Decision Aid and the research behind the tool to improve colorectal cancer screening among American Indians 	<p>This panel will include presentations covering innovative cancer screening or prevention communication messaging; and will also take a close look at the ways these curated messages are getting to hard-to-reach populations.</p>

<p>Concurrent Conversations</p> <p>1. HPV Vaccination Programs in the Community: Strategies for Reaching Vaccine-Hesitant Parents and Their Children</p> <p>2. Primary Care Providers and Patient Referrals to Lung Cancer Screening: What's Working to Ensure That Patients Who Need Screening Get Screened?</p> <p>3. Technology and Health Disparities</p> <p>4. Tobacco Cessation Programs in the Community</p> <p>5. Partnerships for Encouraging Physical Activity and Healthy Eating</p> <p>6. Focus Group to Help Shape Future Dialogues for Action</p> <p>Teaching method(s) <input checked="" type="checkbox"/> Discussion <input checked="" type="checkbox"/> Question/ Answer</p>	<p>Janice L. Krieger, PhD, STEM Translational Communication Center, University of Florida</p> <p>Elizabeth Westbrook, MPH, MCHES, Kentucky Cancer Program, University of Louisville</p> <p>Mary Pasquinelli, DNP, MS, FNP-BC, University of Illinois Health Cancer Center Department of Medicine</p>	<p>3:25-4:45 PM</p> <p>1 hour, 15 minutes Suggested: 1.25</p>	<ul style="list-style-type: none"> Identify plans for implementing strategies for appropriate cancer prevention or screening Discuss action steps needed to achieve goals related to each conversation topic 	<p>These are facilitated cross-disciplinary small groups which have experts as resources for structured conversations linked to key topics in cancer screening and prevention and which lead to recommendations for action to be shared with all participants.</p>
<p>The Comprehensive Approach of the FDA to Tobacco and Nicotine</p> <p>Teaching method(s) <input checked="" type="checkbox"/> Lecture <input checked="" type="checkbox"/> Discussion <input checked="" type="checkbox"/> Question/ Answer</p>	<p>Mitch Zeller, JD, Center for Tobacco Products, Food and Drug Administration</p>	<p>4:45- 5:35 PM</p> <p>50 minutes Suggested: 1.0</p>	<ul style="list-style-type: none"> Provide an overview of the comprehensive approach that FDA takes to tobacco and nicotine Include e-cigs and menthol cigarettes in this discussion 	<p>Mitch Zeller, Director of the FDA's Center for Tobacco Products, will discuss the comprehensive approach that FDA takes to tobacco and nicotine, including e-cigs and menthol cigarettes in his remarks.</p>

Friday, April 26, 2019

Session	Speakers	Time / Credit	Learning Objectives	Session Description
<p>Closing Keynote: How New Technologies will Change Health Care in the Next Five Years</p> <p>Teaching method(s) <input checked="" type="checkbox"/> Lecture <input checked="" type="checkbox"/> Discussion <input checked="" type="checkbox"/> Question/ Answer</p>	<p>Aneesh Chopra, President, CareJourney</p>	<p>8:05-9:10 AM 1 hour, 5 minutes Suggested: 1.0</p>	<ul style="list-style-type: none"> • Discuss prospects for new technologies and their potential impact on health and medical care in 5 years • Discuss the future impact technology will have on cancer screening and prevention, including the privacy of patient information 	<p>Former U.S. chief technology officer, Aneesh Chopra, will discuss the future impact of innovative new technologies on health care.</p>
<p>Research on Cancer Prevention</p> <p>Teaching method(s) <input checked="" type="checkbox"/> Lecture <input checked="" type="checkbox"/> Discussion <input checked="" type="checkbox"/> Question/ Answer</p>	<p><i>Bernard Levin, MD, MD Anderson emeritus, is moderator</i></p> <p>Katherine L. Cook, PhD, Department of Surgical Sciences, Wake Forest Comprehensive Cancer Center</p> <p>Abenaa Brewster, MD, MHS, Department of Clinical Cancer Prevention, Division of Cancer Prevention and Population Sciences, MD Anderson</p> <p>3rd panelist to be announced</p>	<p>9:45-11:00 AM 1 hour, 15 minutes Suggested: 1.25</p>	<ul style="list-style-type: none"> • Describe the evidence for the relationship between the Mediterranean diet and the Breast Microbiome • Provide an overview of current interest in exploring the relationship between the body's microbiomes and disease, and specifically the breast microbiome and breast cancer • Discuss the epidemiology of alcohol use, and the evidence for the link of alcohol consumption to increased risk of certain cancers 	<p>This session will have presentations covering the relationship between diet and breast cancer, and will take a close look at the evidence between alcohol and cancer risk.</p>

<p>Implementation and Sustainability of Evidence Based Programs: Lessons Learned from the Colorectal Control Program</p> <p>Teaching method(s) <input checked="" type="checkbox"/> Lecture <input checked="" type="checkbox"/> Question/ Answer</p>	<p>Djenaba A. Joseph, MD, MPH, Division of Cancer Prevention and Control, Program Services Branch, Centers for Disease Control and Prevention</p>	<p>11:00-11:35 AM 35 minutes Suggested: 0.5</p>	<ul style="list-style-type: none"> Describe the CDC Colorectal Cancer Control Program (CRCCP) model to increase CRC screening in medically underserved communities Discuss the cost-effectiveness of this model for increasing colorectal cancer screening Describe how findings will shape colorectal cancer screening in the future 	<p>This session will go over the CDC Colorectal Cancer Control Program model and the system-level, evidence-based strategies included in the model. Dr. Joseph will also discuss how findings from this model will shape the future of colorectal cancer screening.</p>
<p>Issues in Cancer Screening Guidelines</p> <p>Teaching method(s) <input checked="" type="checkbox"/> Lecture <input checked="" type="checkbox"/> Discussion <input checked="" type="checkbox"/> Question/ Answer</p>	<p><i>Moderator to be announced</i></p> <p>Carmen E. Guerra, MD, MSCE, FACP, Perelman School of Medicine and Cancer Prevention Research Center, University of Pennsylvania</p> <p>David P. Chelmow, MD, Department of Obstetrics and Gynecology, Virginia Commonwealth University School of Medicine</p> <p>Philip E. Castle, PhD, Albert Einstein College of Medicine</p>	<p>11:35-12:45 PM 1 hour, 10 minutes Suggested: 1.0</p>	<ul style="list-style-type: none"> Review the current colorectal cancer screening guidelines by the American Cancer Society and suggest effective implementation strategies Compare and contrast the various national guidelines for breast cancer screening Discuss the effect of divergent screening guidelines on providers and patients on the community level Discuss current cervical cancer screening guidelines and explore benefits and costs of co-testing in the US and abroad 	<p>Issues in Cancer Screening Guidelines will include presentations discussing the updated colorectal cancer screening guidelines and challenges with the breast cancer screening guidelines. This session will also include a presentation by Dr. Phil Castle, on current cervical cancer screening guidelines and a new look at the benefits and costs of co-testing</p>
